### **Personal Remarks**

I was elected during the Rome meeting. My name was brought up by several colleagues as an active member of the EFNS.

I remember very well the vivid and energetic discussion headed by Jes Oleson in the MC meeting in Vienna. It was clear to me that the EFNS is going in the right direction and the goals will be achieved. On a personal note, after the Seville meeting it was my suggestion to Jes to have a core PCO to organize the annual meetings and he accepted it. Since then, the congresses are perfectly and successfully organized by Kenes and I am glad that I contributed to the success.

I was the chairman of the Liaison Committee and together with Jes and Evelyn I helped to establish the EFNA.
